“PERSONAL DEVELOPMENT IS NOT AN AUTOMATIC PROCESS”

Life from infancy to old age consists mostly of interaction with others. Considering the importance of interacting with others smooth sailing, that is where courtesy, good manners, consideration for others come into play. That doesn't mean that one should wear costly or fashionable clothes.

SELF ASSESSMENT

When you launch yourself on a programme of self development, the first step should be to make as objective an assessment of yourself as possible. Your strong and weak points. We must examine ourselves with our habits.

PHYSICAL FITNESS

The body is the first requisite for proper performance of life duties. Health or fitness is not merely absence of sickness. It is a dynamic state where not only one's body but also mental faculties' fun function at peak level. "A SOUND MIND IS A SOUND BODY". In this world we have to achieve many things. To achieve these things we have to pass many hurdles. To pass these hurdles we must have sound health. Enough rest is also needed for good health.

CHOOSING A GOOD ROLE MODEL

The dictionary defines a hero as a "Person noted or admired for nobility, courage, and outstanding achievements." We must take care in selecting good role models. There is this dictum.

ON BEING A PRODUCT PERSON

Precedence means carefulness, being circumspect discrete, cautions, wary. Take for instance precedence play an important role in interpersonal relational ships. A precedence use of one's time is as essential as in the case of money.

ORGANIZE YOURSELF

The Wiseman wishes to be slow in his conduct. To succeed in life, we must co-ordinate our actions and act slowly but steadily.

Good manners, courtesy, politeness is the manifestations of a person's consideration. A man is considered cultured if he has a pleasing deportment, his behavior making a good or favorable impression.
